Greetings everyone!

We are thrilled to be returning with our Purebred Charolais herd sires to the BC Livestock Co-op in Kamloops again this year. The sires on offer will be available for viewing at the stock yard Monday, March 10th.

For those unable to attend the sale in person, there will be the option of online bidding through Next Lot or via telephone / reserved bidding with the BC Livestock sales staff.

The sires on offer this year come from solid 100% AI genetics providing excellent temperaments, great body style, guts and overall performance that will compliment any breeding program.

All of the bulls on offer have been vaccinated and kept on a mixed balanced ration to ensure healthy steady growth.

Bull Breeding Soundness Evaluations will be conducted with our vet at the end of February/beginning of March. This information along with the sale order and weights will be available on sale day.

The herd sires on offer are awesome yearlings along with one special sire, RRTS Heracles 14L who will be a two year old on March 26th.

*If you prefer not to take your bull home on sale day, we will be offering to take the bull(s) back home with us and care for them (with no extra charge) and provide **FREE Delivery** to your nearest BC Livestock Co-op yard in late March/early April. For any bulls that will be staying on our farm until delivery, we do request that insurance be placed on the bulls. While we do everything possible to ensure safe keeping of the bulls (and while incidents are very rare), should something unfortunate happen we want to ensure that our customers are protected.*

If you would like any additional information on the herd sires on offer leading up to sale day, please do not hesitate to contact us.

Take good care & hope you can join us on [Tuesday March 11 at 11 a.m.](#) at the Kamloops BC Livestock Co-op!

Warm regards,

Rob & Colton and Family

What is an EPD?

An EPD (Expected Progeny Differences) is a prediction of future progeny performance for an animal when randomly mated to an infinite number of cattle.

EPD's provide a genetic description for an animal for their traits [i.e. birth weight, weaning weight, milk, yearling weight, etc.]. EPD's are expressed in the actual units of measure for a given trait. As an example, EPD's for traits such as birth weight (BW), weaning weight gain (WW), and yearling weight (YW) are expressed in pounds.

It is important to remember that EPD's should only be used as a guideline as although they are based on reliable criteria, they can only provide a likely probability of what the offspring will be like. Other factors along with genetics such as nutrition and feed as well as condition / health / age of dam etc. all factor in. Each breed also has its own EPD base so cannot reliably be compared across the breeds.

January 2025 Charolais breed average EPD's:

	BW	WW	YW	Milk	TM (1/2 of WW plus Milk)
EPD	0.4	59.5	109.6	22.3	52.0

Why use Charolais?

Simply put, the Charolais breed are designed for more growth. Proven across a variety of climates, the breed is highly adaptable. Charolais make an excellent cross and work to increase weaning weights, provide more performance and improve lean meat yield resulting in a higher profit at the auction.

Terms & Conditions

This sale is CCA certified

All breeding guarantees and auction practices will be as outlined in the CCA Code of Ethics.

TERMS: Monies are payable in Canadian funds upon receipt of an invoice from the BC Livestock Co-op. No cattle shall be released before settlement is made and sale management reserves the right to demand a certified cheque before releasing any sale cattle. Should any purchaser fail to settle for purchase, management reserves full power to resell the animal to the best advantage, either publicly or privately. Any loss arising from such resale, together with keep and all other expenses, shall be payable by the defaulter.

BIDS: Every animal consigned to the sale will be sold by online auction. Each animal will be sold to the highest bidder.

PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as sold. As such, please insure any animals purchased. Any persons who attend a sale yard do so at their own risk. The owners, staff, and sellers assume no liability, legal or otherwise, for property loss or for any incidents that may occur.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected on Next Lot at sale time and will take precedence over the printed matter in catalogue.

CERTIFICATE OF REGISTRY: Certificates of Registration will be made available sale day and provided to the buyer in the buyers name after settlement / delivery has been made. CCA will transfer the records.

BREEDING GUARANTEE: Should any bull under the age of fourteen months or over, fail to prove a breeder after being used on cows, known to be breeders, the matter should be reported to the seller within six months of purchase. The seller will then have the right and privilege of six months to prove the bull a breeder. This is providing the bull has been maintained in satisfactory breeding condition.
